

I am an XM Satellite Radio subscriber. I am concerned about the NAB's petition 04-160 to ban traffic and weather from satellite radio. I rely on this information for my delivery business.

It is a relief to be able to listen directly to this information when I need to hear it. This is one of the reasons, I subscribe to XM. Local channels a person has to wait through up to 30 minutes of music and advertising to hear the weather and traffic information is only delineated during peak traffic times.

I urge not to take these channels away from XM listeners.

Sincerely,
Debora E. Giffin
St Louis, MO
